BLUE UNIT

Inspection

Type: ROUTINE INSPECTION

Date: DEC-16-2002

All redactions on this page are pursuant to (b)(6) & (b)(7)(c).

3.131 (c)

SANITATION.

Premises (buildings and grounds) shall be kept clean and in good repair in order to protect the animals from injury and to facilitate the prescribed husbandry practices set forth in this subpart. Accumulations of trash shall be placed in designated areas and cleared as necessary to protect the health of the animals.

The outdoor daytime enclosure for the alpacas & goats have accumulations of debris (small pieces of plastic & metal, metal cans, paper, etc.) scattered throughout the areas that are available to them. In addition there was a piece of wood lying on the ground that has several sharp pointed nails sticking up.

These objects can potentially injure the animals if they were to ingest, or step on any of these items.

Animal enclosures shall be kept clean at all times in order to protect the animals.

The animals were relocated to another area by the end of the inspection, and this non compliance is now corrected.

Note:

- 1-This inspection performed on the Blue unit at the Central Florida Fairgrounds.
- 2-A copy of policy # 3 Veterinary Care was given to [REDACTED]
- 3-The transport vehicles were not on site, and not inspected
